PROFESSIONAL SUMMARY

Information Technology graduate with hands-on experience in Python and full-stack web development through internships at IBM, EY GDS, and Navodita Infotech. Skilled in Python, JavaScript, React.js, Node.js, Express.js, MongoDB, and MySQL, with knowledge of data structures, algorithms, object-oriented programming, DBMS, and RESTful APIs. Passionate about developing efficient, user-friendly software applications and exploring AI-driven solutions.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript
- **Frontend:** HTML, CSS, React.js, Bootstrap
- **Backend:** Node.js, Express.js
- **Databases:** MongoDB, MySQL
- **Core Computer Science:** Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), DBMS
- **Tools & Platforms:** Git, GitHub, VS Code, Postman
- **AI Tools:** ChatGPT, Gemini AI, Claude AI, DeepSeek AI

EXPERIENCE

Front-End Web Developer Intern – IBM **June 2024 – August 2024**

- Developed a responsive web platform to aggregate climate-related news from multiple sources
- Improved user engagement by designing intuitive UI components and optimizing page responsiveness
- Collaborated in a team environment following structured development practices

MERN Stack Intern – EY GDS & AICTE **Feb 2025 – Mar 2025**

- Built full-stack web applications using the MERN stack (MongoDB, Express, React, Node.js)
- Implemented secure user authentication and RESTful APIs
- Managed database operations and improved application performance

Python Intern – Navodita Infotech **Jan 2026 – Feb 2026**

- Worked on real-world Python tasks involving debugging and problem-solving
- Applied core programming concepts to develop efficient and scalable solutions

PROJECTS

Ritu Veda – Smart Menstrual Health System

- Developed a full-stack application using React.js, Node.js, and Python-based ML models
- Implemented menstrual cycle prediction and ovulation tracking using data-driven logic
- Integrated Google Maps API to locate nearby medical facilities during emergencies
- Designed a responsive dashboard with reminders, tracking calendar, and health insights

Face Recognition-Based Attendance System

- Built an automated attendance system using Python and OpenCV with high detection accuracy
- Integrated MySQL database for secure storage and real-time attendance tracking
- Reduced manual attendance effort through automation

Personal Finance Manager

- Developed a full-stack expense tracking application using React, Node.js, and MongoDB
- Implemented authentication and real-time CRUD operations
- Designed user-friendly UI for efficient financial data management

CERTIFICATES

- 1st Prize – Tech Fest | Katalyst India
- ChatGPT Prompt Engineering Certification – Udemy
- AI Engineer Bootcamp 2025 – Udemy

EDUCATION

- V.P.P. College of Engineering, Sion, Mumbai, Maharashtra - BE in Information Technology (**2022 - 2026**)
- M.B.C. Latur, Maharashtra - Higher Secondary Education (**2020 - 2022**)
- V. Vidyalaya, Walandi, Maharashtra - Secondary Education (**2014 - 2020**)
